### **Corporate Profile:**

Golder Associates is a well respected global group of consulting companies specialising in ground engineering and environmental services.

Golder Associates has experienced steady growth for more than four decades and has more than 4,000 dedicated people operating in local companies, with offices across Africa, Asia, Australia, Europe, North America and South America. Our growth and diversity of services have paralleled the needs of our clients as they operate in an ever-changing and complex global environment.

In Australia, Golder Associates breadth of employees include environmental engineers, scientists, geologists, hydrogeologists, planners, groundwater specialists and environmental managers. Golder Associates has been in Perth for over 25 years and selected by Associates, a global Human Resources firm as "Best Employers to Work For" for 2003, 2004 and 2005.

By meeting client needs and building strong client relationships, our people have made Golder Associates one of the most trusted sources of professional services in the world. We have worked hard to earn our reputation, built on the quality of our professionals and the success of our clients. We are solution focused industry specialists with a demonstrated understanding of regulatory requirements.
